WETASKIWIN, ALBERTA, THURSDAY MAY 25, 1922

PREMIER GREENFIELD MAKES STATEMENT RE RESOURCES

Pointing out that the Alberta government might not be any better off for a few years at least with the administration of its own resources on its lands, and also setting up a very definite claim for compensation for certain land alienated by the Dominion government prior to 1915, Premier Greenfield has issued an official statement on his resources to the government of Ontario during the recent conference with reference to the transfer of the natural resources. The official statement is as follows:

"Representatives from the three prairie provinces met in Ottawa on April 19th at the invitation of Premier W. Mackenzie King, to discuss the natural resources question, following a letter of February 19. The first few sessions were taken up largely in an effort to define certain general principles to govern the negotiations between the provinces. For our part, we allowed the Manitoba and Saskatchewan representatives to take the lead in the discussions during the first few sessions.

"On account of approaching elections in Manitoba, Premier Norriss did not feel authorized to continue negotiations after receiving from the Dominion government the general statement already published in the public press. We therefore advised him to remain a party to this statement, partly because we were prepared to continue negotiations in the hope of reaching a definitive agreement; but mainly because we did not wish to agree to any statement which might be construed as stopping us from any consideration of alienation of natural resources prior to the formation of the province in 1905.

"As there was a clear understanding between the provincial representatives that each province should, at any time, be free to act independently if thought advisable, we remained a few days after the Manitoba and Saskatchewan representatives had left, for home to see if any basis of compromise could be found which would be satisfactory to this province.

C.W.L. HOLD VERY SUCCESSFUL SALE

The members of the Catholic Women's League have much cause for congratulation upon the great success of their annual sale of goods held on Saturday last.

The honourable men of the Briant hotel, with its spring decorations of green and yellow made an ideal tea room. The league's motto: "For God and Canada," an article \$0.50 of valuing by Mr. P. J. Heaney, occupied a conspicuous place of honor.

The beautiful collection and arrangement of plants, hanging baskets, and tripod by Mrs. Kretsch, was certainly a special mention, being much admired and found many eager buyers.

The crowds were a kind to please everyone's fancy, both useful and ornamental, and all were disposed of. The C.W.L. appreciate very much all who helped make the occasion such a successful and pleasant one, and hope there will be other opportunities afforded the members and their friends for meeting in such a spirit of mutual helpfulness. The greatest success attending this event should be an incentive for all members of the league of heartier cooperation and good-will.

ANOTHER BIG HOG SHIPMENT TO EAST

This week Johnson Bros. made another large hog shipment to the east, this time going to New York. The arrangement involved a deal of eight cars, and the animals were of a very good quality. Mr. Ed. Johnson went in charge of the shipment. Another shipment of several cars was made to the Okanagan Valley and to the coast.

The second difficulty arises from the fact that there is very little knowledge of the real benefit to be derived by the transfer of the resources. There seems to be a general exaggerated idea not only of the wealth of our resources, but also of the immediate benefit to be derived by the province from their acquisition. The result is an impatience on the part of some to any suggestion that the transfers should wait until the instance that they should be contented to take over the remaining resources and give up all the present subsidy without any compensation whatever, for any resources hitherto alienated.

"The figures obtained from the department of the interior for the year 1918-1920 (which may be taken as an average year) show as follows:

Receipts

Lands \$782,000

Timber \$165,330

Grazing \$49,000

Forestry \$49,500

Mining, including coal sales \$310,177

Rentals \$18,142

Royalty \$160,000

Petroleum \$75,783

Total \$1,805,562

Expenditures

Civil Government \$493,644.79

Immigration \$520,114.24

Geodetic survey \$19,682.18

Dom. Lands salaries \$271,520

Dom. Lands survey \$223,232.12

Protection of timber \$316,717.11

Why Not Challenge Wetaskiwin's Team?

Well! Well! That's too bad really; Wetaskiwin is about in the same position. Why not make arrangements for a series of games?

WEDDINGS

HEADLEY — HANEY
A pretty marriage ceremony was performed at the Methodist parsonage on Thursday, May 15th, by the Rev. Wm. H. Irwin, when Rufus Lionel Headley, son of Mr. and Mrs. Gus. Headley was united in marriage with Miss Margaret Hanev, of the telephone department at Ponoka. The groom was supported by his brother Foster Headley, while Miss Mabel Roand, of Wetaskiwin, attended the bride.

LACOMBE BREEDERS START SHORTHORN CLUB IN DISTRICT

Lacombe Shorthorn breeders met Saturday for the purpose of organizing a Shorthorn breeders club and in spite of the fact that there was a large number of attendees, there was a representative attendance, and the idea of organizing was enthusiastically received. Jas. B. Davidson, western representative of the Dominion Shorthorn association, was present, and addressed the farmers or the value of cooperation and a further meeting to take the form of a get-together dinner will be held at the Adelphi hotel on May 29th. It is hoped to get a boys' breeding club organized this spring and a meeting will be formed for this purpose shortly.

The following officers for the club were elected at Saturday's meeting: President, J. L. Waters, Clive; vice-president, Wm. Sharpe, Lacombe; second vice-president, John Laing; secretary-treasurer, G. C. Chapman, Lacombe; directors, C. Daunton, Bentley; P. R. Switzer, Lacombe; H. Magilton, Biglans; A. W. Sharpe, Dr. P. Talbot, R. Reid, A. J. Robertson, Fred Emerson, Lacombe.

Canadian Dollar Will Buy a Dollar in New York Soon, Say Experts

New York, May 21—The Canadian exchange rate in New York continues to improve and the Canadian dollar was quoted yesterday at 99.13, a gain of 1-1/2 cent over Thursdays final quotation. The present mark is a new high one for Canadian funds in New York since early in January, 1913.

Weiler Local Holds Anniversary Banquet

The Weiler U.F.A. locals held a banquet in the rest room of the U.P.C.A. block on Thursday evening, last, the occasion being the fourth anniversary of the birthday of the local. A sumptuous repast was served by the ladies of the U.F.A. and attended by the members of the community. The repast was a success.

The agitators were a kind to please everyone's fancy, both useful and ornamental, and all were disposed of.

The C.W.L. appreciate very much all who helped make the occasion such a successful and pleasant one, and hope there will be other opportunities afforded the members and their friends for meeting in such a spirit of mutual helpfulness.

"Mr. Prime Minister:

"I have been commanded by the king to welcome you home in his name and to express his majesty's hope that your health has not suffered from your arduous and prolonged efforts in the cause of peace and the reconstruction of Europe."

According to the Dean of Atholl he was to have been received by the king with the words, "God bless you, Mr. Prime Minister."

"Birthdays," responded by Mra. G. F. Root.

"Our Young People," by A. A. Kuester.

"Community Spirit," by Geo. F. Root.

"Political Activities of U.F.A." by E. E. Sparks.

"The Commercial Activities of U.F.A." by A. P. Moran.

FIRST U.F.A. BASEBALL LEAGUE GAMES PLAYED

The first U.F.A. league games of the season were played between Guyenne and Cherry Grove on Friday evening, and the results were as follows:

Guyenne, 10; Cherry Grove, 9. The commercial activities of the U.F.A. were a success.

CURIOSITY SAVED CHILDREN'S LIVES

Edmonton, May 21—Curiosity proved the means of saving six or eight children from being blown to atoms. The curiosity of a mother to see what sort of fire crackers her daughter wanted to set fire to, revealed a stick or dynamite.

Two little boys had been playing around the warehouse of a construction company near Thirteenth street, and had picked up what they thought were fire crackers. They took them home and handed one each to their sisters and four other little girls living on the street.

A. Alsworth, field supervisor, Red Deer, spent a few days in the district inspecting the roads in company with E. E. Sparks, Reeve Craig and the councillors.

Bricks from Straw

Investigation conducted by experts at Alberta School on Saturday afternoon at 2:45 p.m.

Mrs. J. C. Christopher will give an interesting paper on Home Nursing.

All members are reminded to bring new members as this is the closing meeting of the membership contest.

Although it should not be taken literally, serves to show the trend of the times.

A. A. Sparks, a local boy, has been making a building material out of straw. By a secret process chopped straw is mixed with other ingredients and the resulting composition is said to be a material capable of withstanding more severe tests than concrete.

WOMEN'S INSTITUTE

The Women's Institute will meet at the Alexandra School on Saturday afternoon at 2:45 p.m.

Mrs. J. C. Christopher will give an interesting paper on Home Nursing.

All members are reminded to bring new members as this is the closing meeting of the membership contest.

SOLEMN OATH WAS GIVEN BY WORLD POWERS

London, May 22—Premier Lloyd George, in an interview on his arrival at the Macdonald Hotel to the mezzanine floor, definitely on what he characterized as the "most dramatic spectacle I ever witnessed in any conference," when the representatives of more than thirty nations arose and solemnly pledged themselves in the face of the world to non-aggression.

He said: "That's too bad really; Wetaskiwin is about in the same position. Why not make arrangements for a series of games?"

KILLED IN A FALL AT THE MACDONALD HOTEL

Edmonton, May 22.—E. Court May, son of Alvin May, former foreman of the McNaughton, and known to many in Wetaskiwin, was killed Saturday night by a fall from the sixth floor of the Macdonald Hotel to the mezzanine floor.

OBITUARY

HERBERT GUSTAVE WOIT
There passed away the house of his parents, in the Pleasant Prairie district on Saturday last, Herbert Gustave, son of Mr. and Mrs. Gus. Woit, at the age of seven years and thirteen days. The cause of the demise was diphtheria. The funeral took place on Monday afternoon, the interment being in the Pleasant Prairie cemetery. We join in extending sympathy to the bereaved family.

RENOULD GEORGE LOUCKS

The sympathy of the community will be extended to Mr. and Mrs. George Loucks, of the Muhurth district, in the loss of their son, who died yesterday at the age of seven years and thirteen days. The cause of the demise was diphtheria. The funeral took place on Saturday morning last, when their infant son, Renould George, was removed from the angel of death. The little fellow contracted pneumonia and was brought to Wetaskiwin on Saturday afternoon, the spirit took its flight a few hours after his arrival in the city. He was aged one year and eighteen days.

The premier declared himself absolutely convinced that the Russians were sincere in their desire for pacification, and dilated on the significant fact that the Chinese, which formerly were so antagonistic to each other, are now on the same side, uniting against the aggressors.

He believed this better feeling would be permanent because, as he put it, he represents a very deep seated feeling in the hearts of the people of Europe who are tired of fighting and want peace to resume their ordinary vocations.

The premier also declared that he hadn't the faintest doubt that an armistice would be signed before the French people desisted and peace was restored.

He also declared that the Germans had been doing a great deal of work in the field of gas warfare.

He believed that the Germans had been working hard to get the gas out of the ground.

He believed that the Germans had been

working hard to get the gas out of the ground.

Greatest Swindle
In All History

This is Professor Cassell's designation for the present sale of German marks for repayment purposes. The mark has been passing through a very distressing period, but there are people all over the world who have faith in its future, and these people have been buying marks. They commenced when the mark had dropped to about twenty-five for one dollar, and they have continued while the mark has been dropping even lower, and Mrs. John Maynard Keynes estimated some time ago that this had placed at the disposal of Germany foreign currency to the value of \$1,000,000,000. Most of these buying marks are turning out marks in ever increasing quantities. The second week in April they printed no less than \$500,000,000 marks, which makes 140,000,000,000 marks of German paper money now abroad. That Germany ever expects to redeem these seems incredible, and this is why the Swedish economist says "The greatest swindle in history." Yet after all, it is the man who buys German marks 500 or 600 for the dollar is really gambling on the possibility of a rise, and if he loses, few will have much sympathy for him.

Gambling
In Wheat

The Progressive party in parliament demands a wheat board. In the present parliament, made up of three groups, that party holds the balance of power. As the establishment of a wheat board will place heavy obligations upon the government, naturally the government would prefer that the wheat board will not be set up. But the government has a majority in the house of commons, therefore it must get support from one or other of the opposition groups in order to carry on. So far it has chosen to depend upon the Progressive group for support. The more it has leaned on that support, the more it has come to depend upon it, and the less likely it is to get support from the Conservative group, which controls the balance of power. When the Progressives, in parliament, unitarily and determinedly demand a wheat board, and are backed either aggressively or tactfully by the large majority of the daily press of the prairie west, the government is placed in a difficult position, to say the least, if the demand is refused. The government has yielded so often recently to public pressure, that it may be forced to yield again in this case at least a good bit.

Sidited propaganda, persistently carried on has been successful in impressing the large majority of western wheat growers with the belief that in the operation of a wheat board would be found a remedy for the recent low prices for their staple crop. Last fall, prices were down. This spring prices are up. Obviously, it would be better to have last fall and this spring, when the farmers would have benefited greatly. A wheat board financed on the national credit could have done this. Therefore, let us have a wheat board! If the assumed wheat board had radio connection with the Kingdom of Heaven they would have known that if they held on just fall they would be able to sell to advantage this spring. They did not know, and therefore might have sold in the same fall, held on to the rise, just as many farmers and grain dealers have done on previous occasions too numerous to mention.

The dream that Canada can control the wheat market of the world by pushing forward or holding back her crop, is a dream that may easily become a nightmare. The United States export as much wheat as Australia, Argentina and India are all large wheat exporters, the two former with boundless possibilities of increased production. Russia, the greatest wheat producer of all countries in the world, is rapidly out of the market, but will come back sometime. Attempted market manipulation by Canada could only result in stimulating production in competing countries thereby tending to expand Canada out.

Now wheat, comes on the world's market in every month of the year. Holding wheat for a rise is gamblers, whether by a wheat board, by the grain exchange or by the individual farmer. The demand that a government-appointed board should be allowed to gamble in the market of the Canadian West in the hope that the farmer will profit by the gamble, but gambling involves loss as well as profit, and as already stated unless the wheat board can foretell world prices it must take the same chances as any one else. At present, under free marketing the variety of competing judgments in gambling on the world's supply and need of wheat is in effect

an insurance against financial losses.

The essential idea of the wheat board is that at the cost of the national credit or treasury the crop may be held over a period of low prices, and sold when prices are better. But is the wheat board acting without personal judgment? Try to guess the future price of wheat, and the wheat board acts when it does not know much about agriculture, their life business, and who risk their own money in every move they make? There is no possibility of getting any such board. Until such a board can be got the wheat farmer is safer to use his own judgment in marketing his crop than to depend on the judgment of men who have no interest in the crop except to draw their salaries.

The wheat board would be simply a buying commission, with extraordinary powers and credits. It would be composed of men now in business, who would not be endowed with supernatural powers merely by their appointment. They would be just as likely to rise to the peak of the market and have to sell in the slump, as the most honest wheat farmer and the country boy, who has no knowledge or judgment of such a commission.

The reason is that the Progressive party needs a slogan. The party is in power in Alberta and Ontario, and is practically in power in Saskatchewan and Manitoba. It holds the balance of power in the dominion. It achieved the measure of power which it holds by making extravagant promises to the farmers. Since it has come to power, or to the balance of power, nothing has happened to justify these promises. They have not been able to make good. A slogan for the future is needed to draw the attention of their supporters away from the failures of the present. What could be better than "National Marketing," and the appointment and empowering of a wheat board? If the wheat board does not go through it will not need any coinage stamp to make it current.

Lots of people never lock the door to a temptation until they get it safely inside the house. When a man determines to go blindfolded the accuracy of his eyes will not rise it is a success and the party can claim the credit. The prices will not rise, the wheat board has no power to do that, and is ready alibi, that the Progressive party not being in power did not control the board and that the only remedy is to put them actually in power. They win on the argument, whatever it goes. That is how it happens that Hon. T. A. Creer, leader of the progressives in parliament, and on record as opposed to a wheat board, is now in favor of one, partly because it is forcing itself on the country. Political advantage to the Progressive party, not financial advantage to the western farmer, is the motive behind the demand that the government should appoint a commission to gamble in the western farmer's wheat. —Bulliten.

Eat More Lettuce

It is doubtful if many realize the value of lettuce as food. Most people eat it for a few weeks in the spring, but those who have made a study of the subject claim that it would be of utmost benefit to the general health if the consumption of lettuce the year around were made a general practice. During the winter it was reported that a many gardeners who were settled in Germany, were quite interested with a type of cross, which perhaps was not so foolish an idea as it then seemed. Here are a few reasons for eating lettuce every day that lettuce can be had.

1. Lettuce is one of nature's toothbrushes. 2. Lettuce is rich in vitamins. 3. Lettuce is unquestionably superior to any other vegetable which may be eaten internally as a source of available iron for man.

4. Lettuce serves as physiological stimulus not alone in appetite and digestion in the stomach, but to the more important process of intestinal digestion, and may be considered a preventative of colitis.

5. Lettuce leaves a wholesome bulk to the reader, and helps to combat the evils of indigestion, contract the evils of indigestion, contract the evils of indigestion.

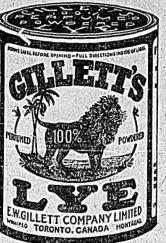

6. Lettuce is among the lowest of all foods in fuel or nutritive value from a caloric point of view, yielding only 90 calories per pound. (About equivalent to two crackers and a glass of milk.) This feature should commend lettuce to all overcooked persons.

7. Lettuce freely used in the diet opposes acidosis and tends to keep the system normally alkaline.

A WORRY

(By Ida M. Thomas)
A worried woman in my door one day, And started in the face, And though it looked scarcely large enough, It occupied all the space.

In every corner it found its way, I gazed with frightened eyes, And didn't know I could handle it, If only I would be wise; For when from its ugly face, When it dimly disgusted me, When it found I ceased to notice it, It shrank off out of sight.

Sentence Sermons

Hiding sin does not heal it. Only venial virtues bear bad weather. Things are without what they are within.

There is little love in long distance charity.

Losing the temper takes the edge off ability.

A man never believes in honesty until he has some of it.

No favoring wind comes to him who will not patch on his ears.

When the wheat farmer and the country boy, he is the one who knows the larger liberal he does in it.

The easiest way to fall out of a Christian path is to sit down in it.

Religion may have many forms, but they have all one face of love.

The man who brings of speed of being does not figure on the grade he is on.

The only man whom poverty can crush is he who lacks the richness of character.

To cause a child profess a man's religion is to put him to school to hypocrisy.

He who has many thoughts to hide never has any that men are glad to hear.

Many a man thinks that the important thing is the size of the aim instead of its height.

When your character is gold you will not need any coinage stamp to make it current.

Other strikes root more readily or bloom with greater blessing than kindness.

Lots of people never lock the door to a temptation until they get it safely inside the house.

When a man determines to go blindfolded the accuracy of his eyes will not rise it is a success and the party can claim the credit.

The only man whom poverty can crush is he who lacks the richness of character.

It is a good thing to stick to what you say, but remember that what you say is very likely to stick to you for a long time.

Charity often means throwing your dough on the waters and keeping a weather eye for an angel food cake to come floating.

The man who has his heart in his own pocket is quite likely to get his hand in his neighbor's.

Winter Goss

Winter days are flying, the tempests usually rises from an unbroken sky.

No matter how hungry a man may be he is sure to choke on the bread of charity without the bitter of kindness.

It is a good thing to stick to what you say, but remember that what you say is very likely to stick to you for a long time.

Charity often means throwing your dough on the waters and keeping a weather eye for an angel food cake to come floating.

The man who has his heart in his own pocket is quite likely to get his hand in his neighbor's.

SECOND REPORT OF THE ALBERTA CROPS

Judged by the Publicity Commission, Edmonton, Thursday, May 18.—The third week in May finds practically all of Alberta's wheat crop in the ground, the grain beginning to show, while seedlings of oats and barley are also up. The weather has been favorable, according to reports coming to the general agricultural official crop summary compiled by the department of agriculture from reports received from its agents. The weather has been cool and showery, with very few warm days, and growth has been slow. Moisture conditions continue to be generally satisfactory, particularly in the southern areas.

Southern Areas.—These areas continue to enjoy a heavy precipita-

tion. Wheat seeding, which was delayed, is now about 99 per cent completed. Seedlings of oats are only well started about 25 per cent being finished. Wheat in some places is showing above the ground. The weather has been cool and showery, with considerable precipitation in all or two sections. The department says upon every farmer the importance of the utmost cooperation on his part with the established organization, to combat this pest. Farmers should use as fast as may be expected. Grasshoppers—Grasshoppers offer a more serious menace than in any other year. Eggs are beginning to hatch out in the southern areas. The department says upon every farmer the importance of the utmost cooperation on his part with the established organization, to combat this pest. Farmers should use as fast as may be expected. The fall crop continues to present a very satisfactory appearance, in some places the grain showing a growth now of four to six inches. Alfalfa is backward and in one or two sections has been killed. The grass has kept up, and the seed appears to have taken strong root, and there has been no soil drifting to any extent. The fall crop continues to present a very satisfactory appearance, in some places the grain showing a growth now of four to six inches. Alfalfa is backward and in one or two sections has been killed.

Wheat.—Wheat in the central areas has been completed and all the wheat is showing above ground with a fine even growth. Seeding of oats and barley is about 50

per cent completed. Precipitation has been fair, but moisture conditions are not so satisfactory as in the more southerly areas. This will be remedied, of course, by the inevitable June rains. Conditions generally are encouraging.

Northern Areas.—All wheat sowing is completed and most of the crop is above ground. Seedlings of oats and barley have been delayed in some districts by rainfalls, but generally speaking is about 50 per cent completed. The moisture conditions are fairly good. There have been frequent showers in many localities, but in others the soil is still rather dry.

Livestock.—Conditions are in a general way a mix of moisture and livestock is not improving in condition as fast as might be expected.

Grasshoppers—Grasshoppers offer a more serious menace than in any other year. Eggs are beginning to hatch out in the southern areas. The department says upon every farmer the importance

of the utmost cooperation on his part with the established organization, to combat this pest. Farmers should

use as fast as may be expected. The fall crop continues to present a very satisfactory appearance, in some places the grain showing a growth now of four to six inches. Carstairs, May 21—When fire broke out in the home here late at 3:15 on Thursday evening a score of guests were forced to rush out into the street in their night attire and so rapid was the fire spread by the flames that many of them barely escaped with their lives, all personal effects being lost in the blaze. The hotel itself is a total loss and it was only due to the valiant efforts of the volunteer fire brigade under Lloyd Aldrich and Dr. H. J. Lee that the damage to other buildings in the same block was kept to a minimum. It was not until 7 o'clock that the fire was finally brought under control,

The farmers on Gopher Lane will find this week.

Walter Benz came up from Ponoka to see his son, Carl, who had just say if any of his friends who to call on him at that place, they can find him in Room 22 right wing.

The sick on Gopher Lane are all

slowly recovering. Mrs. Gus Dickau, is reported sick in bed.

For Sale

FOR SALE—Two buildings, one a dwelling house, 26x23 with 5 rooms up stairs. Also building 24x46, 2 stories with 8 good rooms on second floor both for sale cheap, or might exchange for stock. Inquire of D. W. Wark, or E. Alderman.

SEEED BARLEY—Peeled O.A.C. 21, heavy yielding and best kept feed of any. J. W. Bailey & Sons, Phone R3714, Wetaskiwin.

FOR SALE—House and two lots with garage, water, sewer and electric light. \$300.00 down, balance on very easy payments. For particulars apply to Loggle & Manley. 41tn.

FOR SALE—Bred Sows and Boars, registered, with pedigree. Verdun Home Farm, Bred Yorkshire. We must have taken type of hog that will grow quickly, and we know what to do it is for each farmer to keep one of my hogs type sows, and another to keep one of my hogs. Write for particulars to F. Suya, RR1, Dunham, Alta., Phone 2317, Wetaskiwin. 41tn.

FOR SALE—The property of P. Burns & Co. Limited, fronting on Pearce, MacDonald and Lansdowne streets, in the centre of the business section of the city, consisting of two lots, a solid brick one store building used for stores, and a building fit for warehouse. For all particulars include terms, apply to E. H. D. Wilkins, Wetaskiwin. 31tn.

FOR SALE—Lois 21,223, 11, Block 9 and 10. Snap for quick sale. Thos. E. Finn 118 Stanton, Marquette, Wisconsin. 19-4tn.

FOR SALE—Two registered Shorthorn Bulls, one 4 yrs old and one calf born April 1921, both red; also White Leghorn roosters, simple comb, and Plymouth Rocks, also one Fluffy rapid Grinder, 12 inch with banger. Frank Lucas, Phone R302, Wetaskiwin 32-4tn.

Eggs FOR HATCHING—Rosa comb White Wyandottes and Rhode Island Red eggs for sale from selected layers. \$1.50 per dozen. W. A. Greiner, Phone 1465, Wetaskiwin. 6-6tn.

Miscellaneous

SUMMER GRAZING—For cattle or horses. Apply Edwin Johnson, Miller. 9-3tn.

WARNING—The man, who is at present trying to sell Singer Sewing Machine in this community, under false pretenses, claiming that I am out of business and that my place, is swindling. I am still the local agent. E. M. Peterett, Wetaskiwin. 10-3tn.

Lost

"LOST—in Wetaskiwin, on May 20th, a gold chain and cross. Reward by leaving name at Times office. 10-1tn.

Impounded

IMPOUNDED—In the pound kept by the undersigned, in Wetaskiwin, on May 13th, one sorrel mare, star on forehead, weight about 800 lbs, brown brand, aged about 3 years, Frank W. Higgins, poundkeeper, Wetaskiwin. 10-1tn.

IMPOUNDED—In the pound kept by the undersigned, in Wetaskiwin, on May 13th, one brown mare, branded HP with bar above, on left hip; SV on left shoulder, and HK on shoulder on right shoulder, round marks on left leg above hoof, also one brown gelding colt, star on forehead and white nose, left front foot and both hind feet white, with rope halter. Frank W. Higgins, poundkeeper, Wetaskiwin. 10-1tn.

IMPOUNDED HORSES FOR SALE—There will be offered for sale, at my shop, in Wetaskiwin, Saturday, May 1st, at 2 o'clock, p.m., the following horses, which were impounded on March 24th: One Sorrel mare, about 3 years old, wire cut on right front foot, star on forehead, weight about 1000 lbs, branded lazy F, C underneath, on left hip; also one brown gelding about three years old, weight about 550 lbs, branded Y on right thigh, F rank W. Higgins, poundkeeper, Wetaskiwin. 10-1tn.

Hail Insurance Board

The Municipal Plan, Directed by The on account of giving the protection at cost has, in the three years of its operation, saved the farmers of Alberta, considerably over.

One Million Dollars

in premiums. In addition to the time the Board is commencing the 1922 season \$230,000.00 further ahead than they were when the Act came into operation. They are BETTER PREPARED THAN EVER to handle your business this year. For particulars refer to your Calendar, see the Secretary Treasurer of your Municipal District, or write the Hail Insurance Board, 22 Can. Life Bdg., Calgary

Swinging of Pendulum Will Now Be Used For Locating Oil and Gas

We have all stopped before a clock and watched the pendulum go to and fro, and tick off the seconds of time in our daily work. Why it ticks off seconds, we probably know, and furthermore do not care, as we only know that it is business to do so. However, there is a reason; it is dependent upon the length of the pendulum and upon the force or pull that causes it to oscillate. If we change its length the period will be different, or if we change the force or pull, retaining the same length, the period will again be different.

The pull or force is essentially the attraction of the earth upon the mass of the pendulum. The time of oscillation of a single swing is dependent upon the distance of the center of gravity from the pivot. From this it is obvious that the figure or ellipticity of the earth may be known to us by means of the pendulum.

The figure and rotation of the earth affect the pendulum in two distinct ways. In the northern hemisphere going southward, say from Ottawa to Washington, we get a little farther away from the center of the earth on account of the equatorial bulge. Then, furthermore, at Washington the centrifugal force is greater, there is a greater tendency to fly off; so that altogether the pull at Ottawa is much greater than it is at Washington.

It may be observed that a minor, well known fact in the Yukon, means of a spring balance and bellcrank H. represent so many pounds and ounces, would naturally be surprised if he weighed that gold with the same spring balance in Ottawa, before turning his gold over to the Mint, to find that it weighed less here by something like the 550th part of what it weighed in the Yukon. This is due to no fault of the scale whatever, but to the fact that the earth is not a sphere, but an oblate spheroid, flattened at the north. This is one reason why spring balances are illegal as appliances for weighing. The greatest difference in gravity upon the earth is between the poles and the equator, where the difference amounts to fully two hundredths.

With the great many pendulum observations, or gravity observations, as otherwise called—because by means of the pendulum we determine the exactity of the measurements of the earth's circumference, we can measure various parts of the earth, besides actual linear measurements, which have been made, the figure of the earth is determined with a high degree of accuracy, so that at any given latitude there we know in advance what the theoretical value of gravity should be which is the same thing, we know accurately the length that the pendulum must have in order to swing once there.

The mean density of the earth, which is about five over and a half times that of water, has been well determined and more so the densities of the many formations of rock and other

NOTICE

If the party who took a parcel of dress goods from the store of J. E. Gullberg on April 22, by mistake, will return same to the store, it will be greatly appreciated by the rightful owner.

NOTICE

Ratepayers having themselves indebted to the Municipal District of Montgomery, No. 45, for Hull insurance, are hereby notified that all arrears must be paid before June 30th, 1922.

E. SPARKS,
24tn. Secretary Treasurer.

Swinging of Pendulum Will Now Be Used For Locating Oil and Gas

minerals that constitute the crust of the earth, upon which the oscillations are dependent. Any change in the distribution of them will therefore affect the time of the oscillations of the pendulum. It is obvious that the nearer matter is more effective than matter more remote in its attraction on the pendulum.

All the preceding is to explain and demonstrate that the oscillation of a pendulum is dependent upon the distribution of matter around it and how it.

We are just now at the point of

resolving what the pendulum shows

and by work carried on at the Dominion Observatory. Let us now

see a few words of the pendulum

used for gravity observations. These pendulums have no clockwork. They swing on an angle plane supported by an iron frame.

The time of oscillation of a pendulum is dependent upon the distance of the center of gravity from the pivot.

From this it is evident that the

time of oscillation will be affected

by the mass of the pendulum.

It is evident that the pendulum

tells us positively of the absence

of oil or gas.

On the other hand, we find that

the pendulum is swinging too slowly

when its period is too long, this

would mean that there is present a

defect of mass, the reason for which

may be oil or gas or small rocks

or stones.

RHEUMATISM

LUMBAGO NEURITIS vs. T.R.C.'S SCIASTICA
Have you given up? Have you found no relief? Do you feel a dull, gnawing pain that nothing seems to relieve? Do you think because you can't get to Hot Springs or to the doctor's office treatment that you have no other alternative? We have many cases of rheumatism, sciatica, and everything, bath, serum, electricity, who seek recovery in using T.R.C.'s. (Templeton's) Pain Relieving Liniment. Thousands of letters that prove beyond doubt T.R.C.'s to be the most practical remedy. Send for our free sample remedy sold at drugists, \$1.00 per box. For Free Trial write Templeton, Toronto, SOLD BY NORTHERN DRUG CO.

**A VICTIM OF
BRONCHITIS
BEGAN TO BE AFRAID**

Bronchitis is an acute inflammation of the bronchi, and begins with chills followed by fever, tightness across the chest, difficulty in breathing, hoarseness, etc., dry, hacking cough. The condition is increased in wet weather, and by every slight cold. This cough comes on spasmodically, especially when walking, and is easily relieved by raising freely. The matter raised is at first whitish and sticky, but later becomes of a greenish or yellowish color and is sometimes streaked with blood.

On the first sign of bronchitis you should check it immediately by using

DR. WOOD'S

NORWAY PINE SYRUP

thereby preventing it becoming chronic, and developing into some serious lung trouble.

Mr. John H. Root, 40 Maple Ave., Hamilton, Ont., writes—"It was troubled with bronchitis, had a very bad cold. I laid it so long I was becoming fatigued. I took all kinds of remedies, but without relief. I was advised, by a friend, to take Dr. Wood's Norway Pine Syrup, so I got a bottle. It convinced me to believe that I had, at last, gotten the right medicine. After several days, the cold was practically gone. I have recommended it to others since, and good results followed. It is certainly a wonderful 'Bronchial Cough Remedy.' Price 35c. and 60c. a bottle."

**RECONSTRUCTION OF EUROPEAN
COUNTRY IS HOPE OF DELEGATES
WHO COMPLETED WORK AT GENOA**

Genoa, May 19.—The one dominant thought in Genoa tonight as the delegations to the conference were leaving or packing their trunks preparatory to departing for their homelands, was that, although the conference was a thing of the past as far as Genoa is concerned, its achievements would live and contribute much to the pacification and reconstruction of Europe.

The officials of the smaller states undoubtedly will go home disappointed, perhaps angry, because their troubles have not been settled in Genoa, Lithuania, for example, is charged that Genoa has not changed the Polish frontier in favor of Lithuania; while the small Russian republics bordering the Caspian and Black seas are grieved because Genoa failed to free them from Bolshevik rule. But, as a whole, the belief prevails that the conference, despite disputes which almost pushed Europe to the edge of a precipice, has resulted in the beginning of better understandings between the nations of Europe, including Russia. Even official France admitted this tonight.

France, which came here reluctantly by a somewhat suspicious peace made with more confidence, Louis Barthou, vice premier in the French cabinet and France's chief delegate to the conference, in his final words to the press tonight declared that it was his conviction that the Genoa conference, which he claimed was "the child of Cannes," was today in good health and that he saw no reason why the infant could not journey safely to The Hague.

**Federal Government Owes
More Than a Million On
Relief For Unemployed**

Ottawa, May 19.—The Dominion is now in debt to the provinces approximately \$1,500,000 for unemployment relief. This sum includes unemployment accounts generally but is chiefly on account of the higher costs of carrying on public works in winter. Hon. James Murdoch, minister of labor, gave these figures in the house of commons tonight. He added that already \$60,000 had been voted for relief during the last fiscal year.

The statement was made in connection with the budget of the federal government during the current year and William Irving, Labor, Calgary east, asked how the minister expected to get along with the amount in view of the large expenditure last winter.

"If next winter is anything like last of course we cannot get through on it," responded Mr. Murdoch, "but it is reasonable to be optimistic and hope that conditions will be improved materially."

If you have a man who is not fired with enthusiasm, and you cannot fire him with enthusiasm. Then promptly fire him, with enthusiasm.

MY NEIGHBOR

My neighbor keeps me in a hole, although he is a kindly soul, who would not hurt a flea; he's done me no uncivil trick, and yet the record book makes me sick—he's nearly ruined me. He's always buying gorgeous suits and noble hats and costly boots, he dresses like a king; and shall I let my neighbor shine in splendor costlier than mine? I can't stand that, by Jingo! My neighbor buys a new suit every month, and I am also, a rusty thing and frayed, and shall my neighbor ride in state while I grub round an old tin cruse, the first that Henry made? My neighbor's wife, she's just as bad; she paws around our little grad, a new had on her head; my wife then murmurs through her tears, "I've had my pink old id for years—I would that were dead!" I know how the woman feels, and so I dug up my sundry savings, and I have a new suit, but I cannot see our neighbors prance in pomp and state and circumstance, and not make money fly. My neighbor has a fat ample wad and can afford to walk abroad with diamonds on his duds, and I have just wage I draw about enough to buy the slaw, the sponges and the spuds. But I'm a dead game sport, I wot; like other gamblers, I must trot with those who make things whiz; and so my neighbor keeps me broke; I try to leave a trail of smoke as sumptuous as his.

**How the Udder of a
valuable cow was
saved**

Chas. K. Robbins, of Clapdale Point, Yarmouth, N.S., writes: "A recent experience in milking a cow which had given birth to a stillborn calf has demonstrated the value of Miners' Liniment. I can remember it well, for I have never sold out my herd of cows. For years I have never sold out my herd of cows complete without a bottle of Miners'. For horns, bristles, glands, and all such parts, I have used Miners' Liniment. And I know of no better remedy for such afflictions."

"I think I can safely say that among the dairy products there is none that ever gives such a good result as does Miners' Liniment. A real wonder—God be thanked for it."

**MINARD'S

LINIMENT**

Yarmouth, N.S. 8

**The Uncertainty
of Life**

"Die we certainly must and that, too without being certain whether it may not be on this very day."—Cicero.

It was that conviction of the uncertainty of life, realized so vividly by the best thinkers of all ages, that led to the invention of life insurance.

To meet uncertainty with certainty is the mission of a life insurance office. If proper provision has been made, the Mutual Life of Canada comes promptly to the relief of the family that death has surprised and bereaved.

**IF YOU WANT THE BEST LIFE INSURANCE
IT MUST BE A MUTUAL
POLICY**

Toronto Saturday Night says: "As a matter of strict fact, The Mutual Life is probably the finest Life Insurance Company in the Dominion today. Its securities are real securities."

**IS THERE A MUTUAL POLICY

DUNLOP
CORD TIRES FABRIC

LOOK TO DUNLOP FOR "CORD" SUPREMACY

A man who owns three cars and who has driven an automobile almost since the inception of the "gas buggy" remarked to one of our directors the other day:

"I have been getting such sturdy service from Dunlop Tires that I think your claims about mileage are far too modest. As far as my experience goes, you cannot talk too big."

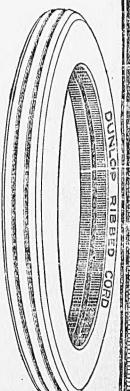

1922, 1921, 1920, 1919—Dunlop Cord Tires came into existence in 1919, and the transformation in mileage year by year that followed their use by motorists has been most striking. 1920 surpassed 1919 to be, in turn, surpassed by 1921; and here's 1922 producing testimonials like this:

"I have just returned to you a 37x5 Dunlop Traction Casing which has gone 24,500 miles. The Casing was used on the rear wheel of one of my Cadillac cars, covering 11,000 miles, and was then transferred to the front wheel and covered 13,500 miles after the change was made. I consider this exceptional mileage, indeed, and needless to say, am more than pleased with the service rendered."

It is important to note that the tire referred to above was on a livery car, and, therefore, could not possibly have been subjected to a more severe test.

Buy Big Mileage in your Tire Purchases—Name Dunlop "Traction Cord" at any Garage or Tire Dealer.

THE WETASKIWIN TIMES

Overcome by smoke from a brush fire on his son's farm near Culmar, west of Leduc, on Tuesday, George Phillips, aged 75, suffered a stroke of apoplexy in an attempt to clear his lungs of the smoke, and was later found dead at the edge of the farm. He has a married daughter living at Bashaw.

H. G. Dissale, engineer of the Canadian Northwestern railway, was appointed highways commissioner under the new public highways act, passed by the last legislature at their annual cabinet meeting. His office is situated at Moose and will be engaged in necessary investigation work during the summer and fall on the classification of roads, etc.

ECCE HOMO

(By Will Holmes)

It is the height of folly to try to increase the beauty of the lily. To add one that of color is to mar its perfectness. It is the secret of the particle that goes into its perfect combination that destroys its perfection. Such perfectness is always the unwilling dream of the artist and the world's masterpiece must make small pretence at approximating perfection. This the beautiful thing relates itself to all life. It sets the standard according to which all things are measured, is the constant challenge to everyone's skill and artistic conception to reach perfection.

In the world of humanity we are all at work creating an experience, incorporating a great variety of elements in such a way as to produce a combination which shall at least be worthy to be called "man". The fact that the name "man" is ascribed to a biped of the higher animal kingdom is not sufficient. As a condition of the survival of the biped there must take place the combination of mind and spiritual elements and man is the physical form plus the process of evolution. The artist's production is set off against the lily and it is found wanting, even though it has all the human virtues, and again comes the open challenge to every human creature in the world. "The best is henceforth to think no better."

And such elements as we have to deal with. The first thing we have is a body. That must be learned to live in such a way that it may be used to produce spiritual power. There must be no under-development at any point. Over-development is as disastrous to perfection as under-development. Not to be concerned about our physical abnormalities is a reckless, unwise unworthy of those who would seek fellowship in a world of healthiness. But the physical is the least of our difficulties. Higher and of greater importance is the mental. Perfection here is not in knowing everything. People have tried to enhance the ideal with perfect knowledge of everything, coloring the perfect with the super-perfect which would mark the perfect. It is not how much you know. It is knowing how to use what you do know that constitutes perfection in thought. Ignorance is not the result of want of experience. It is the result of closed minds refusing to expand. It is the self-imposed limitation of vision. Perfection does not grasp the infinite but ignorance shuts out the infinite. To interpret the things we see, and hear, and feel, and do, in relation to infinity is perfect thinking. Just how successful we are in this determines our moral standard. Immaturity is the dissociation of an action from its infinitesimal relationships. It is the indulgence of the moment to the sacrifice of the infinite. The act has been properly interpreted.

We go further and find still a greater complication. (Degrees can be admitted) in the emotional sphere. Perhaps the emotional life has done more to mar the Divine Image than any other element in the combination. To maintain poise in the matter of loves and hates, avoiding extremes is a balancing feat in which we all experience difficulty. To be able to love and hate, to forgive and to bear the object of one affection ought to be loved, and to hate, to condemn and to chastise things that ought to be chastized and condemned to the proper extent, no more, less, is the perfect emotional development. We are without guidance in this matter. Mind and heart are not far apart. Infinite values will determine for us our loves and hates. In the midst of a busy world of toil for human well-being and the earth aside, but if one sees the halo about the child of infinite possibilities, the bearing of those possibilities on unborn generations, a perfect emotional life will likely halt the busy whirl of affairs long enough to pronounce a blessing at least on the sacred parent of infinite potentialities.

The next vital combination of body and soul and heart, woven together to form a man stands as the ideal to which none can escape relationship. He is the light of the world that brings to light every man on our imperfect productions. Whether we will it or not we are measured by him. Like the maiden who fails to realize her perfect beauty tries to improve herself with artificial coloring as if man could be any color he chose except that a maiden's fresh, so he tries to produce the ideal we have resorted to higher coloring. Our extremes are the exaggerations that make us unlike the perfect. To add one extra dash to spoil the picture of "The Lily of the Valley," "The Man of Galilee."

**Vegreville Claims
Championship Cat**

Vegreville now proudly lays claim to the champion kitteh-foundry on the continent. Read what he says in such boasting as "The Gentiles use." The Observer has authentic information that a certain Miss Ethel, a young woman of some years, while engaged in a social gathering with a number of her friends, a few days ago, was taken with an attack record as a visage and general all round family cat, for it was necessary for her to reproduce her species to the greatest possible extent. Accordingly in the course she gave birth to not less than

TOWN TOPICS

N. Beguin paid a business trip to Edmonton the first of the week.

The U.F.A. District meeting will be held next Saturday at 2 p.m.

The friends of G. H. Robinson are glad to learn he is convalescing after a serious illness.

Mrs. Nordyke went to Calgary yesterday to meet Dr. Nordyke, who is returning from a visit to the Hawaiian Islands—Canadian.

Frieman W. Aylatier of the C.P. bought the home of L. O. Johnson at Wetaskiwin. Some class to Bill, I'll say so—Canadian.

R. M. Angus, who received the appointment of Justice of the Peace some weeks ago, tried his first cases last week.

Miss Hilda Bedford, who has been visiting her parents here for three months left on Tuesday afternoon for Vancouver, where she will resume her studies.

R. A. Reid, passed through the city the second day of the week on his return to Saskatoon to Calgary, and stopped off to renew the acquaintance of old friends. He has taken a position as traveller.

Rev. R. R. Hinckley of Victoria college, Toronto, will spend the summer months here and surrounding territory. He will arrive this week and hopes to open service at several points next Sunday.

John Robinson, who has been assistant agent at Stettler, was in the city the past few days visiting friends and renewing acquaintances. He left on Monday for Castor, where he will relieve for a few days.

Those Willowes' residence was in the news again this week owing to the record breaking amount of losses the Muskeg hill insurance plan functioned without a hitch and is here to stay.

The actual deficit for last year was \$27,474.256. This deficit was paid out of the surplus of the previous year and will have no effect on the rate to be set this year. This year's rate will depend on the amount of loss for this year, and on that alone.

I have taken the liberty to write you this letter because some of your readers, on account of the unfavorable impression they have received, might think it unsafe to insure again your home.

The Board will assess every reader of The Times that the necessary credit for the year's business has

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times:

The newspaper reports of the last annual meeting of the Hall Insurance District, held in Calgary in March last gave a very incorrect impression of the financial condition of the Hall Insurance District. One report was to the effect that the board would have to reduce its last year's operations to \$1,000,000. Both these statements are entirely incorrect and very misleading.

The ability to "run business" was never thought of, much less discussed, for the very excellent reason that business had not been suspended nor is there any necessity or intention of suspending it. The annual deficit last year was almost double the average of the last nine years and 50 per cent greater than the previous high record made in 1916. In spite of the record breaking amount of losses the Muskeg hill insurance plan functioned without a hitch and is here to stay.

The actual deficit for last year was \$27,474.256. This deficit was paid out of the surplus of the previous year and will have no effect on the rate to be set this year. This year's rate will depend on the amount of loss for this year, and on that alone.

John Robinson, who has been assistant agent at Stettler, was in the city the past few days visiting friends and renewing acquaintances. He left on Monday for Castor, where he will relieve for a few days.

Mr. Farmer

Seeding is about through and breaking season is here. Have you bought that Brush Breaker that you will need? If not come down and look at my Verity 22, 16, or 14 inch plow—they have a little the best turning board that you can buy any place and the beans are well ironed and strong enough to stand the pull. If its a Tractor Plow you want I can sell you a complete steel plow in any style that you might want, in either power or hand lift. I have several second hand breakers for sale too, and think I can supply you in anything that will suit.

Don't forget that I always have repairs for the Massey Harris on hand.

As far as Tractors go I have a size for every farm either in a 10-18, a 12-20, a 15-27, or a 22-40, and don't forget that the J. I. Case Co. are behind each of these Tractors so come in and talk this over with me and I am sure that I can show you where our Tractor has it over some of the so-called just as good, and cheaper in cash only machines that are trying to flood the market today.

SMALL HANDY CATTLE	
only are selected to provide the beef for this market. That means smaller bones and tender meat. Less room for you to pay for and better meat on your table. Try a roast and compare it with the big bones, coarse stuff you have been eating. That will be a lesson in meat buying you'll thank us for.	
Bacon, in pieces about 2 lbs each, per lb 35c	
Smoked Boneless Pork Rolls, per lb 35c
